

Pod to Pod Communication - Same node, Different Node...

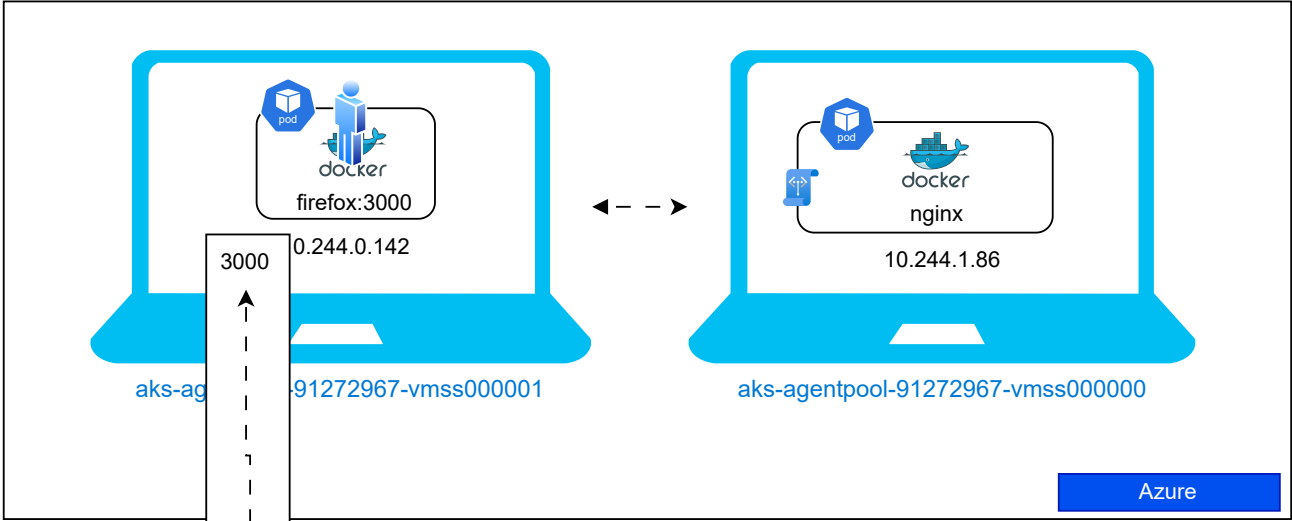

Do Pod ke bich me connection kaise block hoga?

Pod Troubleshoot

Storage ka kya kre? Volumes, Persistant Volumes, Persistant Volume Claims

Every pod have its' own IP

Jitne bhi pods hote hai.. bhale vo ek node pr ho... ya alg alg node pr ho... unko ek hi network ka ip milta hai

Ek pod se dusre pod me bina kisi dikkat ke communication ho sakta hai....

Agar pod pr aata hua traffic rokna hai toh uske lie network policy lgaenge

NSG/Network Policy

Inbound Rule /
ingres

Outbound Rule/
egress

Bina NSG wali sab vm ke by deault port hote hai open... Similarly, Bina Network Policy ke pod ke sab port hote hai open...

Jaise hi NSG chipkaya vm pr, sab port band.... Jaise hi Network Policy lgaya pod pr toh sab port band...
